

THE MESA REFINERY WATCH GROUP

REMINDER: PLEASE ATTEND THE SEPT. 22nd PUBLIC HEARING

- The Phillips 66 Public Hearings will continue on Thursday, Sept. 22, 2016. Your presence will remind SLO Planning Commissioners that the rail terminal project and resulting crude oil trains must be rejected.

a **Date/Time:** Thursday, September 22, 2016. The session starts at 9:00 AM - but you should be there earlier to get a seat in the chambers and/or sign up to be a speaker.

a **Location:** Board of Supervisors' Chambers, Room #D170, County Gov't. Center; 1055 Monterey St., SLO; corner Santa Rosa St. & Monterey St. To the left of the Fremont Theater.

a **"Public Comment":** Citizens and officials may again be able to tell commissioners why they must put our health and safety far above P66's profits, and deny the project.

Although we are vehemently opposed to the project under any circumstances, we will likely be able to comment on "*new findings*" and "*conditions of approval*" - i.e., the strict stipulations P66 must meet if the project were to unbelievably be approved.

- **NOTE:** Even if you've spoken at the hearings this year, you may do so again. But please attend even if you don't plan to speak.

a **Topics Likely To Be Discussed:** At the meeting, the commission and its staff may discuss the delay P66 is seeking, potential conditions of approval, a potential "statement of overriding considerations", and other subjects.

a **Contact Us:** If you have questions, please send an email to Eunice King (MRWG's Chief Administrator) -- MRWCoord@gmail.com. Kindly include your phone number.
